RESEARCH EXPERIENCE

Independent Researcher Jun. 2025 – Aug. 2025
University of International Business and Economics Beijing, China

- Examined the impact of education on traditional gender attitudes using ordered probit models and mediation analysis to identify underlying mechanisms and subgroup heterogeneity.
- Produced a research paper based on this study (currently under review).

Research Assistant Jan. 2025 – May. 2025
University of International Business and Economics, Advisor: Prof. Yan Wang Beijing, China

- Examined systemic interactions in climate risk using DCC-GARCH and network analysis, capturing time-varying spillovers and interconnected dynamics.
- Produced a climate risk-related research paper published in an SSCI-indexed journal.

Team Leader Mar. 2025 – Apr. 2025
Energy Economics Competition Beijing, China

- Identified the causal impact of extreme weather on household energy poverty using CFPS (2014–2022) panel data and fixed-effects models.
- Found extreme weather worsens energy poverty by raising heating costs, with varying impacts across climate zones.
- Verified low-carbon city pilot policies may intensify short-term distributional effects of climate shocks.

Research Assistant Jan. 2023 – Jun. 2023
Jilin Administration Institute, Advisor: Prof. Yun Gao Changchun, China

- Analyzed the macroeconomic impacts and potential financial risks of four sectors: real estate, local government debt, shadow banking and small & medium-sized banks, and put forward corresponding policy recommendations.
- Relevant research findings were published in a general Chinese academic journal.
